Investigador Nacional Nivel III del
Sistema Nacional de Investigadores
P r e s e n t e.

Por este conducto, me permito notificarle que el Consejo General del Sistema Nacional de Investigadores, en su Tercera Sesión Extraordinaria, de fecha 23 de febrero de 2024, acordó su designación como miembro de la Comisión Dictaminadora del Área II. Biología y Química, derivado del proceso de insaculación que se llevó a cabo en la referida Sesión, con fundamento en los artículos 7, fracciones II y X, 10 y 12 del [Reglamento del Sistema Nacional de Investigadores \(Reglamento\)](#), [así como en los Lineamientos de las Comisiones Dictaminadoras del Sistema Nacional de Investigadores \(Lineamientos\)](#).

No omito informarle que su cargo tiene una vigencia de un año y corresponde al proceso de evaluación que se lleve a cabo durante el año de su encargo.

De igual manera, con fundamento en el artículo 34, fracciones I, III, IV y VI, del Reglamento, hago de su conocimiento que, en caso de que usted decida no aceptar la presente designación deberá justificar su determinación por escrito a la Secretaría Ejecutiva, en un plazo que no exceda las 24 horas de haber recibido el presente. Todas las declinaciones se pondrán a consideración del Consejo General para que determine lo que a derecho corresponda.

Sin más por el momento, aprovecho para enviarle un cordial saludo.

Atentamente,

MTRA. KAREN ARACELI ONTIVEROS VÁZQUEZ

Solicitud de evaluación Cátedras Marcos Moshinsky 2018

Dr. Rafael Gutiérrez Aguilar
Departamento de Farmacobiología
CINVESTAV

Estimado Dr. Gutiérrez Aguilar:

La Fundación Marcos Moshinsky ha instituido las “Cátedras de Investigación Marcos Moshinsky” para reconocer a jóvenes científicos de calidad y promesa excepcionales. El premio consiste en un significativo apoyo financiero para realizar un proyecto de investigación original, que se espera contribuya de manera importante al desarrollo científico de nuestro país.

En atención a su reconocido prestigio y méritos académicos, además de su importante apoyo en años anteriores, me dirijo a usted en nombre de la mesa directiva de la Fundación Marcos Moshinsky para solicitar nuevamente su colaboración en la evaluación de los candidatos a las Cátedras de Investigación Marcos Moshinsky 2018. En caso de que usted acepte apoyarnos, le solicitaríamos revisar, dentro del área **Químico-Biológicas**, a los candidatos correspondientes al área específica de **Ciencias Biomédicas**. La información correspondiente se la estaríamos haciendo llegar a la brevedad por el medio que usted nos indique (CD, Dropbox, Google Drive). La fecha límite para recibir la evaluación es el próximo **21 de septiembre**.

Cabe aclarar que los lineamientos generales de la Cátedras Marcos Moshinsky incluyen lo siguiente:

“Las cátedras serán otorgadas a jóvenes científicos mexicanos, o extranjeros, que preferentemente no hayan cumplido los 45 años, radiquen en México y que hayan tenido ya una trayectoria sobresaliente en su área de especialización. Dichos reconocimientos no pretenden premiar el final de trayectorias brillantes, sino dar impulso a carreras exitosas en pleno ascenso. Los candidatos deberán ser investigadores creativos con alto potencial y logros probados, de quienes se espera que, al finalizar el período de la cátedra, contribuyan de manera aún más importante al desarrollo científico de nuestro país. Deben presentar un proyecto de investigación original, a desarrollar en un periodo de dos años”.

Agradecemos la atención que sirva prestar a la presente y le envío un cordial saludo

Subject: Review Request for the German Research Foundation – Ref. MO 432/10–1
From: "Hammerstein, Oliver" <oliver.hammerstein@dfg.de>
Date: 28/06/11 06:20
To: "rafagut@cinvestav.mx" <rafagut@cinvestav.mx>

Review Request for the German Research Foundation – Ref. MO 432/10-1

Project: " Long-range GABAergic cells "
Applicant: Professor Dr. Hannah Monyer, Heidelberg

Dear Professor Gutiérrez

On behalf of the Deutsche Forschungsgemeinschaft (German Research Foundation), I would like to request your assistance in reviewing the above-mentioned proposal, on a voluntary basis. The DFG relies on the expertise of peer reviewers, such as yourself, in evaluating proposals submitted to its highly competitive programmes.

We invite you to access the proposal via the internet, using elan, our electronic review system.

For additional information on electronic reviews, please refer to http://www.dfg.de/en/research_funding/proposal_process/elan/index.html.

Please let us know if you agree to participate in the electronic review. Upon your agreement, we will set up a user account for you, which will also be retained following submission of your review, should we request your assistance in the future.

Once we have set up your personal user account, you will receive two e-mails. The first e-mail from elan@dfg.de contains a link that will lead you to a registration assistant, as well as a password for your initial registration. Please enter your e-mail address as your user name. The second e-mail with the subject "New" will inform you that the proposal has been uploaded to your account. This e-mail also contains a link to the elan portal. You may also access the proposal documents the first time you register, as soon as the second e-mail is received.

The review process and criteria are explained in the enclosed review process guidelines.

Please note that the names of reviewers remain anonymous. Especially in cases where funding has been denied, we would like to forward the content and your reasons for this decision to the applicant. Your review will be made anonymous and, if necessary, edited.

In the interests of the applicant, we request that you submit your review within four weeks.

If you are not able to carry out this review we would appreciate if you could recommend another possible reviewer.

Thank you in advance for your time. If you have any questions concerning the review process, please do not hesitate to contact me.

Yours sincerely,

Dr. Jan Kunze

Subject: Fwd: UC San Diego-Referee Request for Dr. Davide Dulcis – Please Respond by January 25th – ARC0129476
From: Rafael Gutierrez <rafael_gutierrez@icloud.com>
Date: 11/01/16 4:55 p.m.

Cc: "Academic Resource Center, ARC" <arcrequest@ucsd.edu>
Asunto: UC San Diego-Referee Request for Dr. Davide Dulcis – Please Respond by January 25th – ARC0129476

Dear Dr. Gutierrez:

The Department of Psychiatry at the University of California, San Diego, is considering Dr. Davide Dulcis for an appointment (change in series) as Associate Professor In Residence, effective July 1, 2016.

For such appointments, the University of California requires letters of evaluation from experts in the field. I write to ask if you can assist us by providing a frank assessment of Dr. Dulcis' research/creative activity and professional standing, and your opinion as to whether his scholarly accomplishments warrant appointment at the proposed level.

Candidates for appointment in the Professor In Residence series are evaluated using standards identical to those for the Professor (tenure-track and tenured) series; i.e., they are expected to demonstrate the same high quality of research and scholarly accomplishments, teaching ability, and professional service. The primary difference is the manner in which the positions are funded. Although positions in the Professor In Residence series are not tenured, they confer membership in the University of California Academic Senate.

It is my hope that you will be able to provide a critical evaluation of Dr. Dulcis' work, as a detailed evaluation is more useful than a testimonial summary. To aid you, I am attaching Dr. Dulcis' curriculum vitae. It would be most helpful if you addressed:

Confirmation – to whom it may concern

Prof. Rafael Gutiérrez has been awarded a Mercator professorship by the Deutsche Forschungsgemeinschaft (DFG). This prestigious grant is part of the Collaborative Research Center 1134 ("Functional Ensembles") which joins neuroscientists from Heidelberg University and associated institutions under a common research agenda.

The participation of Prof. Gutiérrez is an essential part of this initiative. The grant will be activated by a one-year visit of Prof. Gutiérrez to Germany which will be scheduled according to administrative and scientific considerations.

Estimados investigadores:

Por instrucciones de la Dra. Verónica Bunge, Directora de Redes e Infraestructura Científica, les envío el listado de pre-propuestas que quedaron aprobadas en su área, con el fin de que nos apoyen proporcionándonos nombres de posibles evaluadores para cada propuesta. La tabla también incluye el dictamen que emitieron y las recomendaciones de los evaluadores externos.

La fecha de cierre de la captura de propuestas es el próximo 18 de abril, esperamos que nos puedan mandar sus sugerencias durante el transcurso de la siguiente semana.

Asimismo, les informo que se tiene contemplado llevar a cabo la reunión del Comité de Evaluación de propuestas los días 24 y 25 de mayo de 2016, por lo que les solicitamos nos informen si podemos contar con su valioso apoyo.

Quedo a sus órdenes y que tengan un excelente fin de semana.

PRESENTE

En virtud de su destacada trayectoria y amplia experiencia, nos complace extenderle una cordial invitación para presidir el Comité de Expertos de las propuestas sometidas en el marco de la **Convocatoria Investigación Científica Básica 2017-2018**, dentro del área de Biología-Subcomisión **4**.

Las propuestas serán dictaminadas en una reunión plenaria por los Comités Evaluadores (sede por definir), la cual se llevará a cabo tentativamente en la primera semana de septiembre 2018.

El proceso de evaluación se hará de manera interna entre los miembros de los comités quienes evaluarán las propuestas en Extenso (15 por integrante), cada propuesta será revisada por dos miembros del Comité de Expertos quienes propondrán un dictamen al pleno del Comité. Adicionalmente, se asignará un evaluador externo para cada propuesta en Extenso por invitación directa.

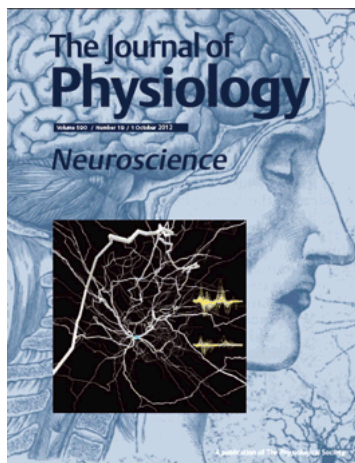

Favor de confirmar su participación en este Comité al Coordinador del área de Biología, Lic. Andrea Judith Suárez López, talleres@conacyt.mx ext. 6129.

Sin otro particular reciba un cordial saludo

Atentamente,

Dr. Marcial Bonilla Marín
Director de Investigación Científica Básica

To: <grafael@fisio.cinvestav.mx>

Date: February 21, 2010

Attention: Dr. Rafael Gutiérrez

Dear Dr. Gutiérrez,

Thank you very much for accepting the invitation of the editorial board membership for Open Journal of Neuroscience. Please visit the Homepage of the journal's website and Instructions for Authors for article submission at the www.rossscience.org/ojns. We very much encourage you and your colleagues to please submit your manuscripts to the journal. Very soon your name will be posted on the Editorial Board Page of the journal's website.

We would expect that each member of the Editorial Board submits at least one manuscript to the journal every year. Submission of manuscripts to the journal from Editorial Board Members will have ZERO article processing charges (APC) that is FREE OF COST. You are also be required to occasionally review submitted papers. You could solicit authors to contribute for the journal. You could solicit reviewers to strengthen the peer review process.

All published articles after publication will be deposited in at least one internationally recognized open access repository such as PubMed Central (if the journal is accepted and indexed within these archive). Moreover, all articles will be sent to all important indexing agencies relevant to the scope of the journal for possible inclusion, therefore providing the maximum exposure to the articles.

In order to help us solicit important topics for manuscripts in your field, we would be most grateful if you could please send us a list of keywords of topics in your discipline which you think are areas of great research interest. Your contribution in this respect would help the journal enormously.

Please could you reply to us by e-mail at ojns@rossscience.org.

We look forward to hearing from you soon.

With kind regards,

Yours sincerely,

Ross Science Publishers

Certificate

To whom it may concern

Hereby I certify that Prof. Rafael Gutiérrez (Department of Pharmacobiology, Centro de Investigación y de Estudios Avanzados del IPN, Mexico) has been awarded a Mercator Professorship of the Deutsche Forschungsgemeinschaft (DFG).

This prestigious professorship enabled him to work as a full-time guest scientist in my department in Heidelberg from July 2016 to June 2017. One immediate outcome of this intense common research period is a competitive research grant in our common field of interest, recently approved by the DFG.

Due to his professorship, Prof. Gutiérrez is also a scientific member of SFB 1134, a major collaborative research center in neurosciences, funded by the DFG (see <http://sfb1134.uni-heidelberg.de/>).

Email J. Lerma (<https://www.journals.elsevier.com:443/neuroscience/editorial-board/j-lerma>)

Associate Editor

J.N. Sanes

(<https://www.journals.elsevier.com:443/neuroscience/editorial-board/jn-sanes>)

Dept. of Neuroscience, Brown University, 185 Meeting Street, Providence, Rhode Island, 02912-9089, USA

Email J.N. Sanes (<https://www.journals.elsevier.com:443/neuroscience/editorial-board/jn-sanes>)

Board of Section Editors

A. Araque

(<https://www.journals.elsevier.com:443/neuroscience/editorial-board/a-araque>)

University of Minnesota, Minneapolis, Minnesota, USA

Synaptic physiology; glial cell biology; neurotransmitter receptors;

signaling mechanisms.

A. Becker

(<https://www.journals.elsevier.com:443/neuroscience/editorial-board/a-becker>)

University of Bonn, Bonn, Germany

Translational neuroscience, epilepsy research, neuroimmunology, molecular pharmacology, neuropathology.

Y. Bozzi

(<https://www.journals.elsevier.com:443/neuroscience/editorial-board/y-bozzi>)

Università di Trento, Trento, Italy

Neurodevelopmental disorders; autism; epilepsy; gene expression; neurotransmitter receptors; signaling mechanisms; plasticity

S. Canals

(<https://www.journals.elsevier.com:443/neuroscience/editorial-board/s-canals>)

Universidad Miguel Hernández (UMH), San Juan de Alicante, Spain

Neuroimaging; functional connectivity; synaptic plasticity; electrophysiology; learning and memory; drug addiction

M.T. Carri

(<https://www.journals.elsevier.com:443/neuroscience/editorial-board/mt-carri>)

Università di Roma "Tor Vergata", Roma, Italy

Neurodegeneration (AD, PD, ALS); oxidative stress and mitochondrial dysfunction; protein aggregation; RNA metabolism

M. Cipolla

University of Vermont, Burlington, Vermont, USA

Cerebral ischemia, Cerebral hemodynamics, Stroke, Ischemic brain injury, Neuroprotection, Reperfusion injury

K.E. Cullen

(<https://www.journals.elsevier.com:443/neuroscience/editorial-board/ke-cullen>)

Johns Hopkins University School of Medicine, Baltimore, Maryland, USA

J. Fudge

(<https://www.journals.elsevier.com:443/neuroscience/editorial-board/j-fudge>)

University of Rochester Medical Center, Rochester, New York, USA

Systems neuroscience; functional neuroanatomy; emotional processing; mood and anxiety disorders

E. Gould, PhD

(<https://www.journals.elsevier.com:443/neuroscience/editorial-board/e-gould-phd>)

Princeton University, Princeton, New Jersey, USA

Systems and Circuits; Human Neuroscience; structural plasticity; hormones, obesity and exercise in cognition.

M. Heckmann

Universität Würzburg, Würzburg, Germany

synaptic transmission, receptor channels and active zones

A. Kania

(<https://www.journals.elsevier.com:443/neuroscience/editorial-board/a-kania>)

Institut de recherches cliniques de Montreal (IRCM), Montréal, Canada

Molecular mechanisms of neural fate specification, axon guidance, neuronal migration and connectivity.

M. Knipper (<https://www.journals.elsevier.com:443/neuroscience/editorial-board/m-knipper>)

Eberhard-Karls-Universität Tübingen, Tübingen, Germany

Hearing deficit, tinnitus, hyperacusis, age-dependent hearing loss, deafness, BDNF, auditory circuits

R. Kuner

Ruprecht-Karls-Universität Heidelberg, Heidelberg, Germany

Sensory mechanisms; Pain; Development of peripheral and central nervous system.

R. Romo

(<https://www.journals.elsevier.com:443/neuroscience/editorial-board/r-romo>)

Universidad Nacional Autónoma de México (UNAM), Mexico City, Mexico

Neurobiology of perception, memory and decision making.

P.C. Salinas

(<https://www.journals.elsevier.com:443/neuroscience/editorial-board/pc-salinas>)

University College London Hospitals, London, UK

S.R. Sesack

(<https://www.journals.elsevier.com:443/neuroscience/editorial-board/sr-sesack>)

University of Pittsburgh, Pittsburgh, Pennsylvania, USA

Tract-tracing and circuit analysis, cellular and subcellular localization of proteins involved in neurotransmission, ultrastructural measures of plasticity in response to drugs and environmental manipulations, physiological pharmacology

M. Takada

Kyoto University, Aichi, Japan

Behavioral and Cognitive Neuroscience. Primate research. Cortical processing.

C. RAFAEL GUTIERREZ AGUILAR

En reconocimiento a su productividad científica, la *Comisión Externa de Investigación de la Coordinación de Institutos Nacionales de Salud*, lo ha acreditado como:

INVESTIGADOR TITULAR "B"

del

Instituto Mexicano de Psiquiatría

Lo felicito y lo exhorto a continuar con su actividad científica, expresión del más elevado quehacer intelectual, que en mucho contribuye al avance de la medicina nacional.

México, D. F., a 24 de marzo de 1997.

Dr. Juan Ramón de la Fuente
Secretario de Salud

El Sistema Nacional de Investigadores otorga al

DR. RAFAEL GUTIERREZ AGUILAR

la distinción de

INVESTIGADOR NACIONAL NIVEL III

Durante el periodo del 1 de enero de 2008 al 31 de diciembre de 2012 por su importante contribución al desarrollo de conocimiento, por su liderazgo en la comunidad académica del país, así como por su participación en la formación de la recursos humanos para la investigación.

**DR. JOSE ANTONIO DE LA PEÑA MENA
SECRETARIO EJECUTIVO**

8XDa+en3PIZcSXUWaHRa0S8TGO+uEWpz9TBhjlZ9w2zMM1jzeY=
Documento firmado electrónicamente.

31 de agosto de 2007

El Sistema Nacional de Investigadores otorga al

DR. RAFAEL GUTIERREZ AGUILAR

la distinción de

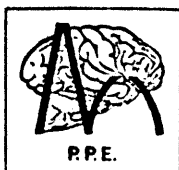

INVESTIGADOR NACIONAL NIVEL III

Durante el periodo del 1 de enero de 2013 al 31 de diciembre de 2017 por su importante contribución al desarrollo de conocimiento, por su liderazgo en la comunidad académica del país, así como por su participación en la formación de la recursos humanos para la investigación.

DRA. LETICIA MYRIAM TORRES GUERRA
Secretaria Ejecutiva del SNI

BhHJwrse18l+OWrKJwm5JA==uegE98AUw0H87QNutWB5nLAB/DI=
Documento firmado electrónicamente.

29 de noviembre de 2012

EL PROGRAMA PRIORITARIO DE EPILEPSIA, SSA
Y EL
PROGRAMA UNIVERSITARIO DE INVESTIGACION EN SALUD, U.N.A.M.

CON BASE EN LA CONVOCATORIA 1989

OTORGAN

AL: DR. AUGUSTO FERNANDEZ GUARDIOLA.
Drs. Rodrigo Fernández Mas, Adrián Martínez, Luisa Rocha y Rafael Gutiérrez.

DIPLOMA

AL PRIMER LUGAR EN EL AREA BASICA.

POR SU TRABAJO DE INVESTIGACION
" FREQUENCY-AND TIMEDOMAIN EEG TOPOGRAPHIC ANALYSIS OF
THE AMYGDALA KINDLING EVOLUTION IN THE CAT"
HABIENDO OBTENIDO ASI EL:

" PREMIO ANUAL DE INVESTIGACION EN EPILEPSIA "

ENTREGADO EL 29 DE JULIO DE 1989, DURANTE LAS ACTIVIDADES
CIENTIFICAS DE LA SEMANA NACIONAL DE EPILEPSIA
EN EL MUSEO DE ANTROPOLOGIA DE LA CIUDAD DE
JALAPA, VERACRUZ.

DR. FRANCISCO RUBIO DONNADIEU
COORDINADOR P.P.E., SSA.

DR. JOSE EDUARDO SAN ESTEBAN
DIRECTOR P.U.I.S., UNAM

LA ACADEMIA NACIONAL DE MEDICINA

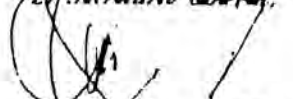

otorga el presente diploma al Psic. Rafael Gutiérrez
que obtuvo el premio "Dr. Maximiliano Ruiz Castañeda" sobre investigación básica
en el año de 1994 con su estudio, intitulado "EEG frequency and time domain mapping
study of the cortical projections of temporal lobe amygdala afterdischarge during kindling in the cat."

México, a 30 de noviembre de 1994

El Presidente

Dr. Carlos Campello Serrano

El Secretario General

Dr. Miguel Trujillo Weber

Registrado a fojas

del libro respectivo
